# Sample Format for Combined 3-Year Education Plan and Annual Education Results Report (AERR) for Public/Separate/Francophone Schools

Each school authority establishes requirements for the content and process for school education plans and annual reports as part of its accountability system. Schools should prepare their education plans and annual reports based on specifications provided by their school authority. For details please refer to the *Policy and Requirements for Planning and Results Reporting*: <http://www.education.alberta.ca/admin/resources/planning/reporting2013.aspx>.

This template is provided to assist in the preparation of their plans and reports. Schools may use, modify or extract elements from this template as required.

Please note that this template is not designed to address the requirements for Charter Schools and Accredited Private Schools. These schools should refer to the Sample Format for Combined 3-Year Education Plan and Annual Education Results Report (AERR) for Charter School and Accredited Private School Authorities.

Notes:

1. PAT results are a weighted average of the percent meeting standards (Acceptable, Excellence) on Provincial Achievement Tests. The weights are the number of students enrolled in each course. Courses included: English Language Arts (Grades 3, 6, 9), Science (Grades 6, 9), French Language Arts (Grades 3, 6, 9), Français (Grades 3, 6, 9).
2. Diploma results are a weighted average of percent meeting standards (Acceptable, Excellence) on Diploma Examinations. The weights are the number of students writing the Diploma Examination for each course. Courses included: English Language Arts 30-1, English Language Arts 30-2, French Language Arts 30-1, Français 30-1, Chemistry 30, Physics 30, Biology 30, Science 30.
3. Overall evaluations can only be calculated if both improvement and achievement evaluations are available.
4. The subsequent pages include evaluations for each performance measure. If jurisdictions desire not to present this information for each performance measure in the subsequent pages, please include a reference to this overall summary page for each performance measure.
5. Data values have been suppressed where the number of students or respondents is less than 6. Suppression is marked with an asterisk (\*).
6. Please note that participation in Diploma Examinations and Grade 9 Provincial Achievement Tests was impacted by the flooding in June 2013. Caution should be used when interpreting trends over time for the province and those school authorities affected by the floods.

Measure Evaluation Reference

**Achievement Evaluation**

Achievement evaluation is based upon a comparison of Current Year data to a set of standards which remain consistent over time. The Standards are calculated by taking the 3 year average of baseline data for each measure across all school jurisdictions and calculating the 5th, 25th, 75th and 95th percentiles. Once calculated, these standards remain in place from year to year to allow for consistent planning and evaluation.

The table below shows the range of values defining the 5 achievement evaluation levels for each measure.

Measure	Very Low	Low	Intermediate	High	Very High
Safe and Caring	0.00 - 77.62	77.62 - 81.05	81.05 - 84.50	84.50 - 88.03	88.03 - 100.00

Notes:

- 1) For all measures except Drop Out Rate: The range of values at each evaluation level is interpreted as greater than or equal to the lower value, and less than the higher value. For the Very High evaluation level, values range from greater than or equal to the lower value to 100%.
- 2) Drop Out Rate measure: As "Drop Out Rate" is inverse to most measures (i.e. lower values are "better"), the range of values at each evaluation level is interpreted as greater than the lower value and less than or equal to the higher value. For the Very High evaluation level, values range from 0% to less than or equal to the higher value.

**Improvement Table**

For each jurisdiction, improvement evaluation consists of comparing the Current Year result for each measure with the previous three-year average. A chi-square statistical test is used to determine the significance of the improvement. This test takes into account the size of the jurisdiction in the calculation to make improvement evaluation fair across jurisdictions of different sizes.

The table below shows the definition of the 5 improvement evaluation levels based upon the chi-square result.

Evaluation Category	Chi-Square Range
Declined Significantly	3.84 + (current < previous 3-year average)
Declined	1.00 - 3.83 (current < previous 3-year average)
Maintained	less than 1.00
Improved	1.00 - 3.83 (current > previous 3-year average)
Improved Significantly	3.84 + (current > previous 3-year average)

**Overall Evaluation Table**

The overall evaluation combines the Achievement Evaluation and the Improvement Evaluation. The table below illustrates how the Achievement and Improvement evaluations are combined to get the overall evaluation.

Improvement	Achievement				
	Very High	High	Intermediate	Low	Very Low
Improved Significantly	Excellent	Good	Good	Good	Acceptable
Improved	Excellent	Good	Good	Acceptable	Issue
Maintained	Excellent	Good	Acceptable	Issue	Concern
Declined	Good	Acceptable	Issue	Issue	Concern
Declined Significantly	Acceptable	Issue	Issue	Concern	Concern

**Category Evaluation**

The category evaluation is an average of the Overall Evaluation of the measures that make up the category. For the purpose of the calculation, consider an Overall Evaluation of Excellent to be 2, Good to be 1, Acceptable to be 0, Issue to be -1, and Concern to be -2. The simple average (mean) of these values rounded to the nearest integer produces the Category Evaluation value. This is converted back to a colour using the same scale above (e.g. 2=Excellent, 1=Good, 0=Intermediate, -1=Issue, -2=Concern)

## Goal One: An excellent start to learning

*Outcome: Children are reaching emotional, social, intellectual and physical development milestones and are ready for school.*

- There are no required performance measures for this goal. Schools are encouraged to incorporate early development data available at the local level.

### Comment on Results

Eldorado Focus - With the continuation of our positive programs, individual classrooms will become more cohesive as classroom communities within the larger school community. More class time will be consumed in a positive culture replacing negative patterns, which will give all students an excellent start to learning.

### Strategies

- Implementation of regular classroom peace circles.
- Continue with The Roots of Empathy program, Friendship groups, Yoga for all grades, AIM for Success, Friends for Life, Fun Friends.
- Continue and expand on the Positive Playgrounds Program-All staff including educational assistants will revisit and review this program.
- Continue and expand on the Positivity Police Program –all staff- Revamp to include reasons for ticket, to remind and celebrate what the award is for. Recognize daily with reason over announcements. Let us include adults, let us encourage students to recommend each other.
- Create a celebration corner in the monthly school newsletter-admin-input required from teachers to gather data for this corner.
- Update school web site with celebrations of positive successes-IT administrator –Links to Glogster: Links etc. More Interactive sites.
- Expand virtues program with weekly mini-classroom activities (in health) and monthly skits at assemblies highlighting the upcoming virtue-Certified staff and admin, student leadership. Students take control of assemblies.
- Increase usage of student agendas to share positive interactions and celebrations that happened for the day/week.
- Announce the day's birthdays-"It's my Birthday" stickers.

## Goal Two: Success for Every Student

Outcome: Students achieve student learning outcomes.

1. Aggregated Diploma results are a weighted average of percent meeting standards (Acceptable, Excellence) on Diploma Examinations. The weights are the number of students writing the Diploma Examination for each course. Courses included: English Language Arts 30-1, English Language Arts 30-2, French Language Arts 30-1, Français 30-1, Chemistry 30, Physics 30, Biology 30, Science 30. The percentages achieving the acceptable standard include the percentages achieving the standard of excellence.
2. Diploma Examination Participation, High School Completion and High school to Post-secondary Transition rates are based upon a cohort of grade 10 students who are tracked over time.
3. Please note that the rules for Rutherford Scholarships changed in 2008, which increased the number of students eligible for Rutherford Scholarships. The history for the measure has been re-computed to allow for trends to be identified.
4. Data values have been suppressed where the number of students or respondents is less than 6. Suppression is marked with an asterisk (\*).
5. Please note that participation in Diploma Examinations was impacted by the flooding in June 2013. Caution should be used when interpreting trends over time for the province and those school authorities affected by the floods.

Outcome: *Students demonstrate proficiency in literacy and numeracy.*

**Comment on Results**

We increased the overall percentage of acceptable level by 3%.

Not all categories were low on standard of excellence

Grade 6 Math – **Increased by 3.6% for ACC**

Grade 6 Reading – **Increased by 5.4% for SOE** (28.6% to 34%)

- Still above provincial average by 1%

Grade 3 Writing – **Increased by 4.4% for SOE**

Grade 3 Reading – **Increased by 2.2% for ACC**

Grade 3 Reading – **Increased by 1.5% for SOE**

- Upon examination of the results for Grade 3 & 6, our overall math achievement has decreased.

**Strategies**

- Plans to address math achievement – Possibilities may include Math Club, Enrichment Pull Out, ability grouping, mental math, and perhaps Math buddies.
- We have noticed that our students excel at addition, multiplication, and have difficulties with subtraction and division. We are looking as a staff at our delivery of how we introduce and reinforce these concepts as a school.

**Notes:**

1. Aggregated PAT results are based upon a weighted average of percent meeting standards (Acceptable, Excellence). The weights are the number of students enrolled in each course. **Comment on Results**

These stats may reflect the fact that we didn't have a school wide musical last year due to budget cuts. We switched over from the traditional computer lab to Chrome books in classrooms. This is a new change for the school and how technology accessibility has changed in the school.

**Strategies**

In the future, if budget allows us to increase our music program, we will try to have a musical again. We will continue to enter several groups into the Kins Performing Arts Festival.

- Please note that our Eldorado school choir has been invited to perform at the Alberta Children's Choir Gold Concert in Edmonton in February. We have accepted the invitation and will be doing special fundraising to fund this event.
- We have added a 2<sup>nd</sup> cart of Chromebooks that increases access for students.
- Students receive a once a week fitness session in addition to their regular daily physical education

Note: Data values have been suppressed where the number of students or respondents is less than 6. Suppression is marked with an asterisk (\*).

## Goal Four: Engaged and effective governance

*Outcome: The education system demonstrates collaboration and engagement.*

Keep doing what we are doing.

*AIM for success –Roots of Empathy, Boys Council, Girls Group, Friends for Life, Fun Friends, Yoga, Nutrition Program (breakfast), Peace Circles, Restorative Justice, Positive Playgrounds Program, Author visits, Farm Safety Workshop, Daily PE, Health Champions*

### Strategies

- Utilize SurveyMonkey.com and create a tool to gather feedback on this goal. We will gather this information possibly at parent/teacher interviews with Chromebooks.
- Continue with above programs
- Positive Playgrounds-Students recommending each other for tickets
- Continue to collaborate with Parent Council on matters of education
- Teacher collaboration among research cohorts,
- Teachers visiting each other's classrooms (Learning Rounds and Instructional Rounds)
- Increase the use of agendas to share positive interactions and celebrations that happened for the day/ week.
- Announce the day's birthdays –It's my birthday- pencils and bracelets

Note: Data values have been suppressed where the number of students or respondents is less than 6. Suppression is marked with an asterisk (\*).

*Outcome: Students and communities have access to safe and healthy learning environments.*

**Comment on Results**

*(an assessment of progress toward achieving the target)*

We have decreased in students are safe at school, are learning the importance of caring for others, are learning respect for others and are treated fairly in school.

**Decreased 11.1%**

- We honestly do not know why the percentage has decreased so much. We are hoping to gather feedback from a larger percentage of our school community. We will be doing this through our survey.

Percentage of teachers, parents and students indicating that their school and schools in their jurisdiction have improved or stayed the same the last three years.

- The results may be reflective of the fact the question also asks about our school and schools in the jurisdiction.

**Strategies**

- **Based on our feedback from the survey, we will look at strategies/programming to help resolve this issue.**
- **Upsell Parent Council and try to broaden the base of interest in this group**
-

### **APPENDIX – Measure Details**

The following pages include tables and graphs that provide detailed data for the performance measures. Schools may include these under each measure/outcome to provide context and help in interpreting the results.

## Diploma Examination Results – Measure Details

Note: Data values have been suppressed where the number of students or respondents is less than 6. Suppression is marked with an asterisk (\*).

“A” = Acceptable; “E” = Excellence — the percentages achieving the acceptable standard include the percentages achieving the standard of excellence.

Please note that participation in Diploma Examinations was impacted by the flooding in June 2013. Caution should be used when interpreting trends over time for the province and those school authorities affected by the floods.

**Measure Evaluation Reference - Achievement Evaluation**

Achievement evaluation is based upon a comparison of Current Year data to a set of standards which remain consistent over time. The Standards are calculated by taking the 3 year average of baseline data for each measure across all school jurisdictions and calculating the 5th, 25th, 75th, and 95th percentiles. Once calculated, these standards remain in place from year to year to allow for consistent planning and evaluation.

The table below shows the range of values defining the 5 achievement evaluation levels for each measure.

[No Data for Diploma Achievement Evaluation Reference]

**Notes:**

The range of values at each evaluation level is interpreted as greater than or equal to the lower value, and less than the higher value. For the Very High evaluation level, values range from greater than or equal to the lower value to 100%.

Achievement Evaluation is not calculated for courses that do not have sufficient data available, either due to too few jurisdictions offering the course or because of changes in examinations.

**Improvement Table**

For each jurisdiction, improvement evaluation consists of comparing the Current Year result for each measure with the previous three-year average. A chi-square statistical test is used to determine the significance of the improvement. This test takes into account the size of the jurisdiction in the calculation to make improvement evaluation fair across jurisdictions of different sizes.

The table below shows the definition of the 5 improvement evaluation levels based upon the chi-square result.

[No Data for Diploma Improvement Reference]

**Overall Evaluation Table**

The overall evaluation combines the Achievement Evaluation and the Improvement Evaluation. The table below illustrates how the Achievement and Improvement evaluations are combined to get the overall evaluation.

Achievement Evaluation is not calculated for courses that do not have sufficient data available, either due to too few jurisdictions offering the course or because of changes in tests.

Please note that participation in Grade 9 Provincial Achievement Tests was substantially impacted by the flooding in June 2013. Caution should be used when interpreting trends over time for the province and those school authorities affected by the floods.

**Measure Evaluation Reference - Achievement Evaluation**

Achievement evaluation is based upon a comparison of Current Year data to a set of standards which remain consistent over time. The Standards are calculated by taking the 3 year average of baseline data for each measure across all school jurisdictions and calculating the 5th, 25th, 75th, and 95th percentiles. Once calculated, these standards remain in place from year to year to allow for consistent planning and evaluation.

The table below shows the range of values defining the 5 achievement evaluation levels for each measure.

Notes:

The range of values at each evaluation level is interpreted as greater than or equal to the lower value, and less than the higher value. For the Very High evaluation level, values range from greater than or equal to the lower value to 100%.

Achievement Evaluation is not calculated for courses that do not have sufficient data available, either due to too few jurisdictions offering the course or because of changes in tests.

**Improvement Table**

For each jurisdiction, improvement evaluation consists of comparing the Current Year result for each measure with the previous three-year average. A chi-square statistical test is used to determine the significance of the improvement. This test takes into account the size of the jurisdiction in the calculation to make improvement evaluation fair across jurisdictions of different sizes.

The table below shows the definition of the 5 improvement evaluation levels based upon the chi-square result.

Evaluation Category	Chi-Square Range
Declined Significantly	3.84 + (current < previous 3-year average)
Declined	1.00 - 3.83 (current < previous 3-year average)
Maintained	less than 1.00
Improved	1.00 - 3.83 (current > previous 3-year average)
Improved Significantly	3.84 + (current > previous 3-year average)

**Overall Evaluation Table**

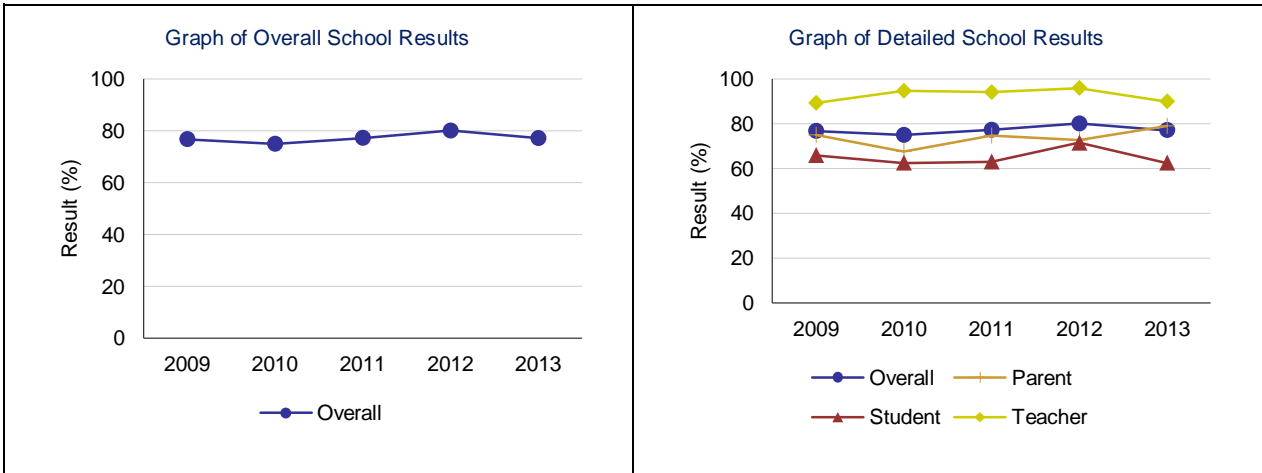

The overall evaluation combines the Achievement Evaluation and the Improvement Evaluation. The table below illustrates how the Achievement and Improvement evaluations are combined to get the overall evaluation.

	Achievement				
	Very High	High	Intermediate	Low	Very Low
Improved Significantly	Excellent	Good	Good	Good	Acceptable
Improved	Excellent	Good	Good	Acceptable	Issue
Maintained	Excellent	Good	Acceptable	Issue	Concern
Declined	Good	Acceptable	Issue	Issue	Concern
