WRSD - Content Filtering

1) At WRSD we employ an enterprise solution from Cisco which allows content filtering for billions of URLs in each blockable category.

Category filtering

Blocked website categories | Adult and Pornography ✕ | Peer to Peer ✕

2) We are also piloting software named Securly which protects students on computers throughout the school while giving them safe access to 21st century learning tools like YouTube, Google and Wikipedia.

URL/Keyword and Content Scanning		Policy (Enabled)
Safe Google, Bing, Yahoo Search	ⓘ	✔
YouTube's Safety Mode	ⓘ	✔

Category		Policy (Blocked)
Sexual Content	ⓘ	✔
Drugs		☐
Gambling		✔
Other Adult Content	ⓘ	☐
Social Media	ⓘ	☐
Computer/Network Misuse	ⓘ	☐
Chat/Messaging	ⓘ	☐
Web Mail	ⓘ	☐
Religion/Ideologies/Opinions	ⓘ	☐
Other Search Engines (No Safe Search)	ⓘ	✔
Networking	ⓘ	☐
Web Ads	ⓘ	☐
School Cheating	ⓘ	✔
Games	ⓘ	☐
Health	ⓘ	☐

Home Filtering Options

1) The easiest way to make your Internet safer, faster and more reliable.

Built-in phishing protection and Web usage reporting.
No software required.

2)   Parental control technology can help you identify and block web sites you decide are inappropriate for your children.

▪ **Features include: Strong, effective Parental Controls**
A comprehensive database of over 550 million URL's protects against access to inappropriate sites. Specific categories of web sites or specific sites can be blocked.
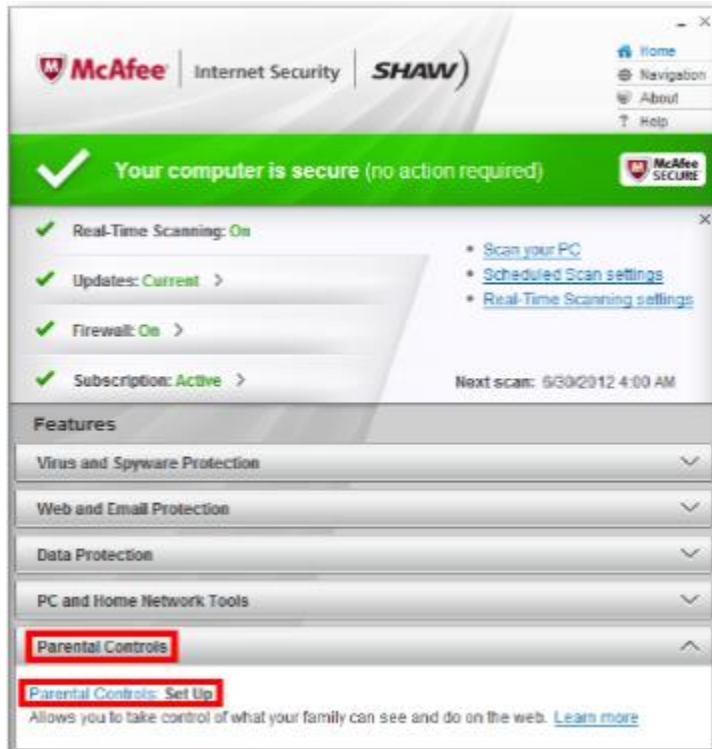

▪ **Easy multi-user profile settings**
Easy selection of age based profiles allows for protection from inappropriate content. Additionally, parents may add specific sites to these pre-configured profiles.

▪ **Scheduling**
TELUS Parental Control can limit access by time of day and/or activity such as instant messaging or web browsing
